Submarine Enlisted Community Management Management (Non-Nuclear)

Enlisted Women in Submarines UPDATE

NAVADMINs 019/15, 020/15 and 021/15 have been released and the Submarine Enlisted Community Managers are now accepting packages for this initiative!

All interested Sailors should review the NAVADMINs to ensure their packages are complete prior to submission. For clarification of package criteria a sample package has been posted on the Submarine ECM Enlisted Women in Submarines webpage on the NPC website. (Link below)

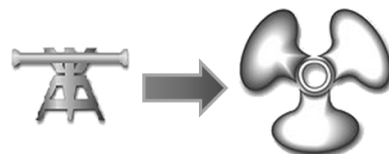

If you have any questions concerning package requirements or submarines in general please contact the Submarine ECMs.

<http://www.public.navy.mil/bupers-npc/enlisted/community/submarine/Pages/EnlistedWomeninSubmarines.aspx>

Conversion Opportunities

The Submarine Force is looking for volunteers in the Auxiliary and Weapons (MMA/MMW) Machinist's Mate ratings. We are currently offering convert in opportunities for year groups 2006-2012 in both ratings. These ratings offer excellent historical advancement opportunity and future community growth. In addition the following SRB is offered:

- ⇒ MM-Aux: Zone A, 1.0 multiple, 45K cap, Tier 2.
- ⇒ MM-Aux: Zone B, 1.0 multiple, 60K cap, Tier 1.
- ⇒ MM-Weps: Zone A, 1.5 multiple, 45K cap, Tier 2.
- ⇒ MM-Weps: Zone B, 2.0 multiple, 60K cap, Tier 1.

All applicants (convert in) selected for conversion by the Submarine ECM are required to complete a Submarine Volunteer package, pass a Submarine Physical and be screened by PERS 403 for Submarine Duty.

A security clearance is required for this rating. Must be adjudicated.

ASVAB requirements per NAVADMIN 344/06: VE+AR+MK+MC=210.

Additionally, we will favorably consider direct conversion of all Zone A eligible FT's to the MM-Weapons rating if they are previously qualified Fire Control Technician of the Watch and Team Leader.

MEET YOUR ECM!

The Submarine ECM will be in Guam from 16-20 February and ready to assist with any questions. Additionally, the EWIS Roadshow schedule has been posted on the NPC Website. This roadshow will feature stops in multiple locations. While it has been specifically tailored for the Enlisted Women in Submarines initiative, community experts will be available to answer any submarine personnel related questions you may have. Personnel of all paygrades are invited to attend.

CHANGES TO FT SRB AND EARLY OUT

Fire Control Technicians will no longer be eligible to receive a Zone A Selected Reenlistment Bonus. Eligible members may submit for Enlisted Early Transition Program (EETP). Under EETP, personnel in the FT rating will be authorized early separation for eligible Sailors in competitive ratings up to 24 months prior to their extended Enlisted Active Obligated Service, or Soft EAOS (SEAOS).

The Navy continues to experience excellent retention and outstanding recruiting success, increasing the number and quality of sailors provided to the fleet. To reduce the requirement of non-voluntary force shaping measures and allow greater opportunity for sailors desiring to stay navy the enlisted early transition program will authorize early separations for eligible sailors in competitive ratings.

All FTs interested in EETP should review the webpage at the NPC website: <http://www.public.navy.mil/bupers-npc/enlisted/community/Pages/EETP.aspx>

SUBMITTING FOR SUBMARINE RATINGS VIA C-WAY

All E1-E6 female Sailors desiring selection to submarine ratings must submit applications per NAVADMIN 021/15. This NAVADMIN can be found on the NPC website in the reference library under messages. Additional information can be found under the Submarine Enlisted Community Manager tab on the Enlisted Women in Submarines webpage on the NPC website. Submissions via C-Way will not be approved.

NEW OPTION ON THE HORIZON IN C-WAY FOR SUBMARINERS

A proposal has been submitted for a new option on the C-Way application, "SC" for the Submarine Program Option. This new status will allow Commanding Officers to clearly communicate requests for C-Way-Reen for Submarine Sailors who need to extend or reenlist to continue receiving Submarine Pay and incentives.

Because this is an "other" option, the Command Career Counselor will need to place a note in the system describing what the SC is for, i.e. "Submarine Pay Obliserv".
